## Early Learning Centre

*Government licensed and independently  
accredited childcare in a nurturing environment.*

*Helping children reach their full  
potential in a caring, family environment.*

Helping children succeed.

EHRLO EARLY  
LEARNING CENTRE

- Government licensed
- Subsidized
- COA Accredited
- Qualify educators
- Child-directed curriculum based learning
- Nutritional meals

Established in 2002, Ehrlo Early Learning Centre, formerly known as Ehrlo Daycare, provides high quality education and childcare. This high quality is achieved through the cooperation and involvement of parents, children, and early childhood educators. We believe that children need social nourishment to develop as healthy individuals. We stimulate cognitive, emotional, physical, social and creative development throughout the day with a variety of activities. Acceptance and fairness contribute to children's well-being and the development of high self-esteem.

We emphasize safety, trust and routine. Limits are set in a respectful and non-judgmental manner.

An atmosphere of fun is created to help us carry out our philosophy, objectives, and goals. We ensure that children and educators share and create experiences together to provide the most desirable environment possible.

Ehrlo Early Learning is fully accredited through the Council on Accreditation.

**Hourly \$6**

## School Age Program

The School Age Program offers year round care for children and youth attending school from grade one through grade eight. We provide breakfast and an afternoon snack.

We are open all professional development days and school holidays for full day coverage.

The School Age Program brings new students into the school and families into the community.

*The School Age Program is not available at all five locations. This program is dependant on the availability of space and needs of the parents attending that school (prices on the back page).*
